HOW IT WORKS

All custom products under the CLOTHING DEVELOPMENT segment are made-to-order and are only manufactured when ordered.

- Download the corresponding tech pack and describe your piece in detail. Do check with our sample tech pack how it should look like. Should something you want to do not be included in our tech pack, you can add comments and we will see if it is possible to achieve anyway. If you have drawings or other documents, put them in annex.
- Send us your tech pack via **bnsb21sports@gmail.com**
- We'll analyze your project and provide you with a quote after analysis.
- Approval of the tech pack and confirmation of your order.
- Production starts as soon as we have received your payment and all fabrics and accessories are ready.
- We will keep you updated on the production status.
- After the products have passed the quality control check, they will be shipped to you.
