HOW IT WORKS

All custom products under the CLOTHING DEVELOPMENT segment are made-to-order and are only manufactured when ordered.

- Download the corresponding tech pack and describe your piece in detail. Do check with our sample tech pack how it should look like. Should something you want to do not be included in our tech pack, you can add comments and we will see if it is possible to achieve anyway. If you have drawings or other documents, put them in annex.
- Send us your tech pack via **bnsb21sports@gmail.com**
- We'll analyze your project and provide you with a quote after analysis.
- Approval of the tech pack and confirmation of your order.
- Production starts as soon as we have received your payment and all fabrics and accessories are ready.
- We will keep you updated on the production status.
- After the products have passed the quality control check, they will be shipped to you.

Terms and Conditions applied, you can find them under:

FABRIC

INFORMATION:

All our fabrics are 100% made and dyed in Portugal.
All of our cotton is grown using natural fertilizers and pesticides. In addition, genetically modified seeds are not used in their cultivation, which helps to conserve seed biodiversity and soil fertility.

FABRICS:

FABRIC 1	**Nylon (Polyamide) Blends: Soft, smooth, lightweight, dries quickly, and offers excellent shape retention. Often blended with 15-20% spandex.**
FABRIC 2	**Polyester Blends: More durable, resistant to chlorine, and holds color well, making it ideal for frequent swimmers. Also blended with spandex for stretch.**
FABRIC 3	**PBT (Polybutylene Terephthalate): A type of polyester known for exceptional stretch and chlorine resistance, often used in performance swimwear.**
